

ELEMENTARY MATH FOR PARENTS WEB PAGES

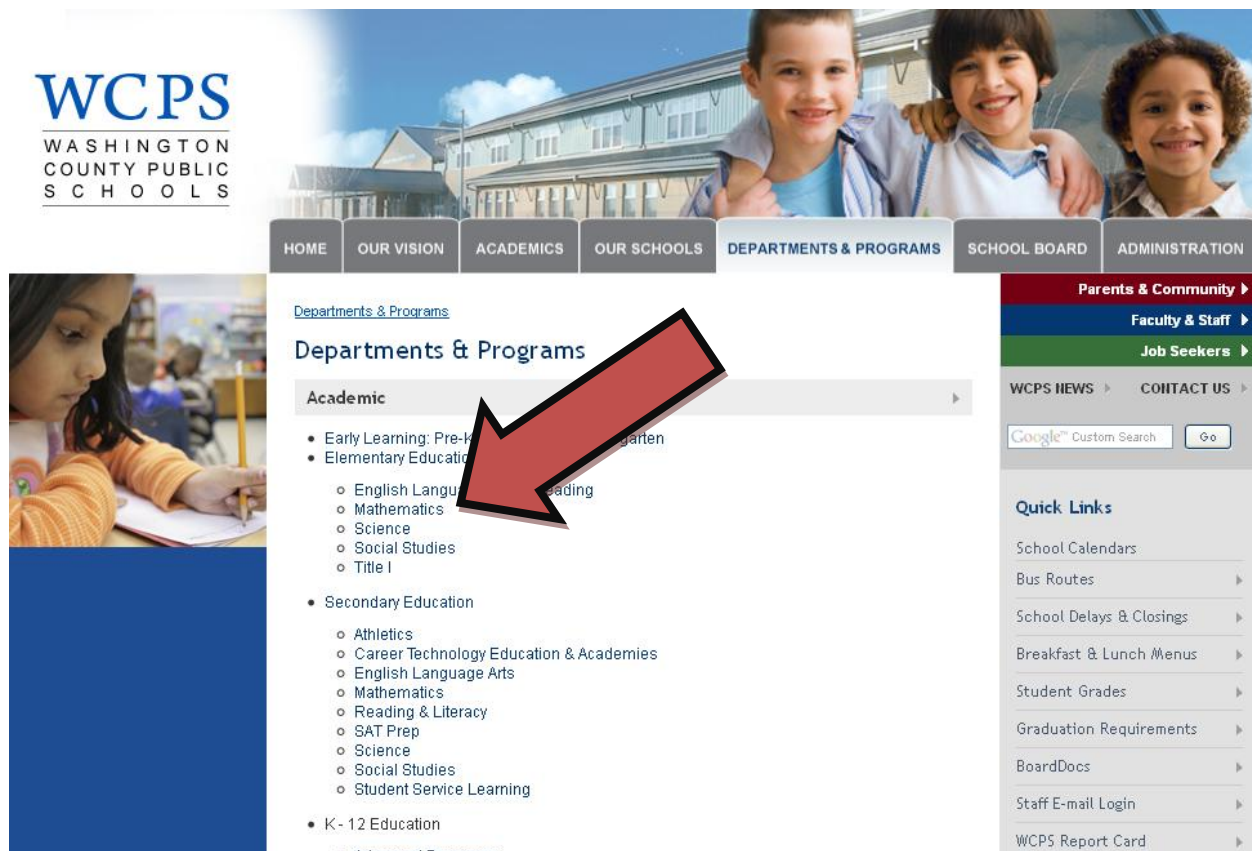

The Elementary Math team is working on elementary math pages for parents on the WCPS site. These are directions for accessing the parent math site from www.wcboe.k12.md.us

1. From the home page, select the departments and programs tab

The screenshot shows the WCPS homepage. The navigation menu at the top includes: HOME, OUR VISION, ACADEMICS, OUR SCHOOLS, DEPARTMENTS & PROGRAMS, SCHOOL BOARD, and ADMINISTRATION. A red arrow points to the 'DEPARTMENTS & PROGRAMS' tab. Below the navigation menu, the main content area features a 'Welcome to Washington County, MD Public Schools' message, a '2011-2012 School Year Calendar' announcement, and a 'Take a look at Washington County Public Schools' button. A sidebar on the right contains 'Parents & Community' links, a search bar, and 'Quick Links' such as 'School Calendars', 'Bus Routes', and 'Student Grades'.

2. Select mathematics under elementary education

The screenshot shows the 'Departments & Programs' page. The 'DEPARTMENTS & PROGRAMS' tab is selected in the navigation menu. The page content is organized into categories: Academic, Secondary Education, and K-12 Education. Under the 'Academic' category, there is a sub-section for 'Elementary Education' which includes a list of subjects: English Language Arts, Mathematics, Science, Social Studies, and Title I. A red arrow points to the 'Mathematics' link. The sidebar on the right remains the same as in the previous screenshot.

3. Click on the word **HERE** in the sentence: For more information about the Elementary Math Department, click **HERE** for additional pages:

Elementary Math

The Elementary Math Pages are currently under construction.

Thank you for your understanding.

"In this changing world, those who understand and can do mathematics will have significantly enhanced opportunities and options for shaping their futures. Mathematical competence opens doors to productive futures. A lack of mathematical competence keeps those doors closed. All students should have the opportunity and the support necessary to learn significant mathematics with depth and understanding. There is no conflict between equity and excellence."

NCTM (2000, p.50)

The purpose of this site is to provide you with information and resources to support and enrich your child's math knowledge. If you are unable to find information pertinent to your needs, please [contact us](#).

Grade level information can be found by using the menu on the left.

The goal of the Washington County Public Schools pre-K-12 mathematics program is for all students to achieve mathematical proficiency by developing both conceptual understanding and procedural fluency. The end result is the ability to think and reason mathematically and use mathematics to solve problems in authentic contexts.
